

ITNRides 2.0

Updates and Improvements

Sending Future Manifests

There is a new button on the Driver record: "Manifest Send 2 Days Out". This will send manifests to the driver for 2 days from today – if it's a Friday, it will send manifests for Sunday. Behaves like the email/edit manifest send, so you can edit the email before sending it. We are also adding a "Manifest Send 3 Days Out", so that Monday manifests can be sent on Fridays as well.

Reports

- All Active Riders by Zipcode: provides a count of Active riders in each zipcode
- Chargent Transactions by Gateway (in Financial Reports)

Access to ITNRides 1.5

For those who transitioned to ITNRides 2.0 from ITNRides 1.5-

Online access to the ITNRides 1.5 servers will be disabled as of December 15th. Once this occurs, past users will not be able to log into the system anymore. ITNAmerica will continue to have access and past users will be able to request data, but please plan ahead and pull any reports you know you will need prior to the shutdown.
